#### Highly efficient brine-to-water heat pump for indoor installation.

Heat pump white textured (similar to RAL 9003). Heat pump for heating purposes with two performance levels for increased efficiency in partial load operation for indoor installation and integrated heat pump manager WPM Econ5Plus with standard display. Brine circulating pump 15 m delivery height at 18 m3/h, flange connection DN 65, installation length 340 mm, heat generator circuit pump 8 m delivery height at 14 m3/h, flange connection DN 65, installation length 340 mm. Use of load-variable tariffs (SG Ready) High coefficients of performance (COP) through electronic expansion valve and electronic pump control depending on the temperature spread in the brine and generator circuit. FWO function for more efficient domestic hot water preparation with increased domestic hot water temperatures and volumes of water to be drawn through optimised tank charging. Soft starter, flow and return sensors for the brine and heating circuit integrated. Dirt trap for brine circuit, external sensor (standard NTC-2), circulating pumps for brine and heat generator circuit in the scope of supply (observe the free compression). Sensor monitoring of the refrigeration circuit for a high degree of operational safety and integrated thermal energy metering (display of the calculated quantity of thermal energy for heating, domestic hot water and swimming pool water preparation). Brine package SZB must be ordered separately. Variable connection options for brine and heating connections on the back board of the casing. Bivalent or bivalent-renewable operating mode Distribution systems with unmixed and mixed heating circuits Access for service work from the front, no minimum clearance required on the sides, accessible from underneath with a lift truck. Universal design with two compressors for output regulation when operating at partial load, optional domestic hot water preparation and flexible expansion options for: A sound-optimised metal casing and the integrated solid-borne sound insulation with free-swinging compressor base plate make direct connection with the heating system possible.
